

**Kronen Icecream- and Sorbet Maker
from 0.75 to 2.5 liter capacity**

Top quality: tried and tested

Sorbet Maker Models Mini and Stella

For small and medium sized gastronomic outlets, for cookery schools and for the passionate hobby chefs.

model Mini

Both models have been specifically developed for the production of sorbet. Thanks to the powerful refrigeration technology you can produce your own sorbet within 20 minutes.

Performance

- komplett aus Edelstahl
- made entirely from stainless steel
- maintenance-free refrigeration unit
- cooling agent R 134 A
- timer
- separate switches for refrigeration unit and mixer

model Stella

Technical data

model	capacity	output per hour	voltage	nominal power	refrigeration	height	width	depth	net weight
Mini	0,75 kg	2,25 kg	230 V 50 Hz/1	0,1 kw	air cooling	27 cm	30 cm	45 cm	18 kg
Stella	1,25 kg	3,75 kg	230 V 50 Hz/1	0,4 kw	air cooling	31 cm	51 cm	35 cm	30 kg

The given output capacity is subject to working and production conditions.
Rights reserved for technical changes with various models.

**For truly stunning desserts:
these machines let you produce
home-made icecreams,
sorbets and granita.**

model G 10

Advantages and strengths:

You can add ingredients like hazelnuts, almonds, pistachios, raisins or chocolate during the freezing process.

Powerful one-block-cylinder made from stainless steel.

Stainless steel mixer with easily detachable paddles.

Security magnet on lid.

Rinsing outlet from container for easy cleaning.

Freezing cycle with timer.

‘Holding temperature’ feature, so you can keep the temperature constant if you don’t take the container out immediately at the end of the cycle (only with model G10).

Warning lamp for incorrect product temperature (only with model G10)

model G 5

Technische Daten:

model	capacity	output per hour	voltage	nominal power	refrigeration	height	width	depth	net weight
G5	1,7 kg	5 kg	230 V 50 Hz/1	0,7 kw	air cooling	32 cm	43 cm	47 cm	46,8 kg
G10	2,5 kg	10 kg	230 V 50 Hz/1	1,0 kw	air cooling	34 cm	48 cm	49 cm	55,0 kg

The given output capacity is subject to working and production conditions.
Rights reserved for technical changes with various models.

The **granita pulse** switch (below).

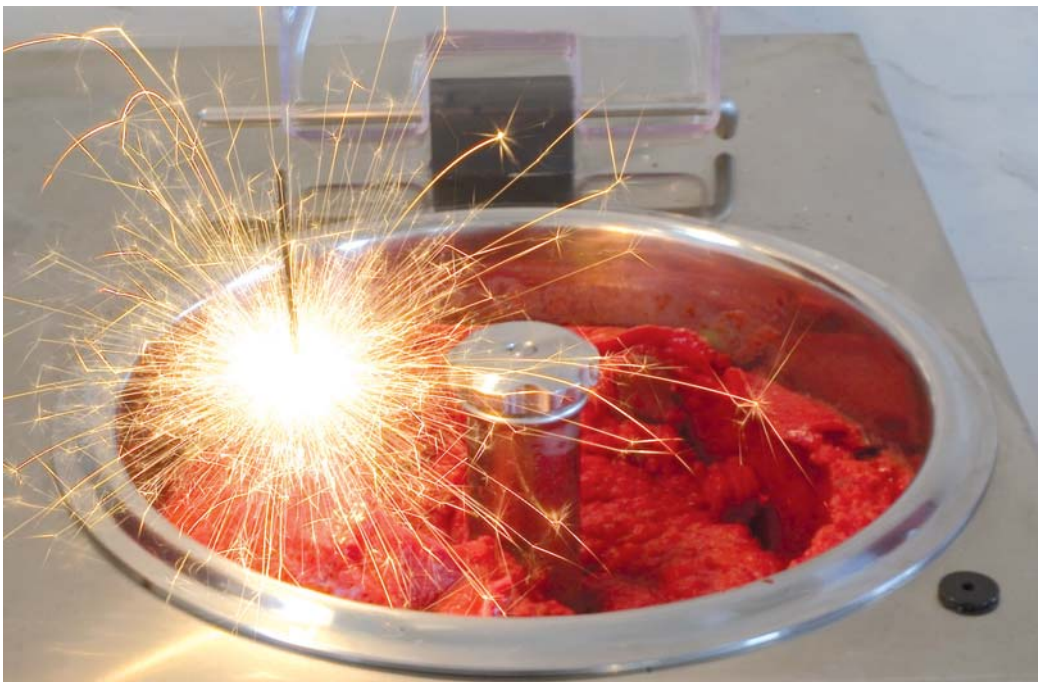

The **temperature holding** switch keeps your icecream at serving temperature. The machine automatically starts cooling again if the temperature drops and the icecream starts to melt. Keeps your icecream at perfect serving temperature. A real advantage of our model G10.

For quick and easy cleaning: the **rinsing device**.

Surprise your guests with home-made icecream and sorbet.

Small or big capacity: we have the right model for you!

The bowl:
clean design without corners and edges. Made from 100% stainless steel - makes hygiene easy!

The timer:
No need to check constantly. Automatically switches off cooling and mixing.

Separate switches:
your icecream stays smooth because you can work mixer and freezing unit separately.

**Delicious sorbets
and icecreams**

Red Berries Sorbet

Lemon Sorbet

Kiwi Sorbet

Papaya-Mango Sorbet

**Blueberry Sorbet
.... and many more!**

The No 1 for kitchen devices
